

## 1-6 Red Routes

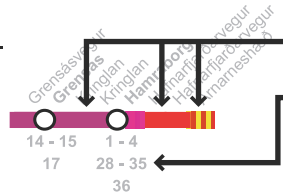

Principal services on larger main roads.

Shows all bus stops on the route.  
Start and end stops, together with larger interchanges, are shown in bold type.

## 11-19 Green routes

Services connecting residential areas to red routes.

Route bar uses different colours for each municipality.  
Numbers below the bar show other routes using that stop.

## 21-36 Blue Routes

Local services that connect to red routes.

- Reykjavík
- Kópavogur
- Garðabær
- Hafnarfjörður
- Seltjarnanes
- Mosfellsbær
- Álftanes
- Akranes

Timetables are shown for three periods.  
Monday-Friday, Saturday, Sunday and public holidays.

The first column shows the names of selected stops on the route.  
Start and end stops are always shown in bold type.

All numbers in the timetables indicate minutes past the hour, with the exception of the first and last journeys, which show the hour and the minutes.

The first column of numbers shows the first journeys of the day. Times are shown in this manner when a journey does not begin at its usual starting point.

The next columns show the frequency of bus journeys during the course of the day (minutes past the hour). The text above each column indicates the period of the day. Sometimes the frequency alters more than once during the course of the day.

The column on the far right shows the time of last journey on the route.

Exceptions are shown in the footnotes

Mánudagur - föstudags
